For more information on the complete range of Steadmans Paramount doors contact Steadmans on

01697 478 277.

Also available:

Ten point locking steel door

Clearly safe

Steadmans Paramount Fire Rated Emergency doors comply with British standard BS EN 1634-1:2000. These doors have been tested, passed and certified by The Warrington Fire Global Safety Laboratory WF Report No.15280.

Paramount doors come in two types.

1. To accept different panic bars.
2. Predrilled to accept Paramount panic bars.

Panic bars

Panic bars may be purchased separately.

Construction

There are two vertical steel reinforcements in the interior of the door to increase both strength & security.

Anti-jemmy studs

Anti-jemmy studs are fitted to the frame and door. These studs protrude and interlock when the door is closed.

The frame & wheelchair access

This has 6 jacking bolts enabling the installer to quickly fix the door and frame to the opening. Steadmans Paramount doors are subjected to 5 cleansing treatments before being powder coated and oven baked. The threshold and all fittings are stainless steel and comply with local authority directives for wheelchair users.

Insulation

The doors are insulated with glass wool in accordance with British Standards directives BS EN1634-1:2000.
